

# Oswaldo Martinez

## Software Developer

With over a decade of experience in the tech industry, I bring a wealth of knowledge and a robust skill set to the table.

My expertise spans across a diverse range of programming languages including Java, PHP, JavaScript, Dart, Python, HTML, and CSS.

In addition to my programming capabilities, I have extensive experience with frameworks and tools such as Angular, Android Studio (Java), Flutter, SQL, jQuery, Bootstrap, SASS, and LESS. My proficiency extends to collaborative platforms like GIT, and I am well-versed in software applications such as Photoshop, Illustrator, Corel Draw, and Unity.

My collaborative efforts have been demonstrated through my work on platforms like Drupal and WordPress. For over eight years, I served as a software development instructor at La Salle Catholic schools, where I contributed to shaping the minds of aspiring developers.

I am also a founding member of the FenixDevel and HestinGames development groups, where we push the boundaries of software innovation and game development.

## Employment History

### Software Developer at FenixDevel, Havana -Miami

2012 – PRESENT

As a Lead Full Stack Developer, I specialize in architecting custom software solutions that meticulously meet client specifications with precision and innovative design. My role encompasses the full spectrum of development, from initial concept to final deployment, ensuring a seamless and efficient user experience across all platforms.

### Frontend Developer at HestinGames, Havana

2017 – 2022

In my capacity as a Frontend Developer for a video game development group, I am dedicated to creating immersive and interactive interfaces that significantly enhance user engagement. My focus is on optimizing the user experience for gaming platforms, utilizing the latest technologies to deliver visually appealing and responsive designs.
